

EFFECTIVE LEADERSHIP FOUNDATION

OVERVIEW

Our two-day Effective Leadership workshop marks the start of an individual and collective development journey. Designed around a well-established and acclaimed framework, The Leadership Circle Profile™, this workshop enables leaders to build their own mind-map of what it means to be an effective leader in a complex system. Participants are offered an opportunity to identify and work with a series of leadership competencies and behaviours that have been shown to significantly impact leadership ability, effectiveness and overall performance of teams and organisations.

KEY OUTCOMES

- A clear understanding of what effective leadership means in your context
- An in-depth reflection of your current leadership assumptions and behaviours against a valid and research-based model
- To build a mental model that helps you identify what you need to shift to be more effective
- To make leadership practical, translating into action what is required of you to accelerate this effectiveness
- A foundation for an organisation's long-term leadership development agenda

WHO SHOULD ATTEND

Current and aspiring leaders looking to make a developmental shift in their leadership competence.

DURATION

Two full days, or 4 half-days.

DETAILS

Facilitated virtually or in-person.
